

SUMMER CAMP

Science, Technology, Engineering & Math

Don't miss this engaging, hands-on STEM program!
No experience necessary - space is limited.

4th & 5th Grade Camps:
Engineering Innovation

June 10 to June 15

Drones & Robotics
June 17 to June 21

Middle School Camps:
Drones & Robotics

July 8 to July 12

Forensics
July 15 to July 19

Camp Instructor; Mrs. McLain, BNS Science & Engineering Teacher

Engineering Innovation

This camp will include an introduction to the engineering design process and a week filled with hands-on engineering design challenges! Time to get creative & be innovative! Are you up for the challenge?

Drones & Robotics

Interested in flying drones and building robots? This camp will introduce you the world of drones including FAA regulations for flight safety. You will also build and program VEX IQ robots to complete challenging tasks and to battle in the bot arena!

Forensic Science

It's time to learn how to evaluate evidence and solve crimes in this one of a kind "who done it" camp! You will learn how to lift fingerprints from a crime scene, identify hair and fiber samples under a microscope and understand blood spatter patterns to help solve crimes!

Monday-Friday
9AM to 3PM
\$140/Week

Campers need to bring a lunch, snacks and a water bottle daily. Before and after care is available, at an additional cost.
